**Abstract:** In the globalization context, the concept of knowledge management tends to become a *mantra* for any kind of modern organization. This element found at the leadership management confluence, is a human resource capital needing a serious approach. The present study seeks to identify some of the knowledge management basic features within public organizations. The data gathered by the applied research will emphasize the importance of several practices related to knowledge management as strategic planning, innovation or academic research.

**Keywords:** knowledge management, skills, information, innovation, strategic planning
