

METODOLOGIA DE ÎNREGISTRARE A UNEI CERERI NAȚIONALE DE BREVET DE INVENȚIE

THE METHODOLOGY FOR FILING A NATIONAL PATENT APPLICATION

Conf. inf.ec.dr., Emilia CIUPAN
Universitatea Tehnică din Cluj-Napoca

Abstract: The paper presents the filing procedure for a national patent application addressed to the State Office of Patents and Trademarks in Romania. It describes the main steps from the preparation of the application until to the patent approval or refusal of the application. Also, there are presented the main risks that may affect a favorable solution of the demand, as well as measures to avoid them or diminish their effects.

Keywords: Romanian patent application, procedures, patent legislation, risks.
