Universitatea Tehnică din Cluj-Napoca

Abstract: The individual is the heart of any institution. He is the one who makes things happen. He is part of a team, a new family, in which he has to accommodate and respect its defining elements. Public institutions adopt different organizational cultures based on the organizational structure by which they operate. Human resource management involves continuous improvement activities of all employees in order to achieve organizational mission and goals.

Keywords: Human resources, modern concepts, public institutions
